

The Road to Work

Graduating soon? No work in sight? Are you worried about your employment options? If you are unable to find work after graduating contact Työtie 2.0 - a FREE and VOLUNTARY career coaching service for unemployed jobseekers!

The service is for people registered as unemployed jobseekers, so you need to graduate before becoming a customer. Our coaching adapts to your specific situation and needs. Our coaches will help you in applying for work or further education. We collaborate with companies and learning institutions, we organize free certificate training (f.e. occupational safety card training) for our customers and guide you through the jungle of the modern labour market! Whether you need help with creating a resume, utilizing LinkedIn or contacting potential employers - our coaches can assist you!

Työtie 2.0 is an employment policy project managed by UrAVa ry. We operate in Valkeakoski, Akaa, Urjala and Pälkäne.

After graduating contact your local coach or fill out the contact form on our website!
